

## Progression in Instruction Texts

### **Purpose:**

To ensure something is done effectively and/or correctly with a successful outcome for the participant(s)

### **Common Examples:**

- How to design and make artefacts
- Technical manuals: how operate computers, devices etc.
- How to carry out science experiments/mathematical procedure
- How to play a game
- Recipes

### **Generic Structure:**

- Begin by defining the goal or desired outcome eg. *How to make a board game*
- List any material or equipment needed, in order
- Provide simple, clear instructions. Provide steps that need to be undertaken in the order followed to achieve goal.
- Diagrams or illustrations are often integral and make even take the place of some of the text. Eg. *Diagram B shows you how to connect the wires.*
- A final evaluative statement can be used to wrap up the process eg. *Now go and enjoy playing your new game. Your beautiful summer salad is ready to eat.*

### **Planning and Preparation:**

- Use the title to show what the instructions are about eg. *How to look after goldfish.*
- Work out exactly what sequence is needed to achieve planned goal.
- Decide on the important points you need to include at each stage.
- Keep sentences as short and simple as possible.
- Avoid unnecessary adjectives and adverbs or technical words, especially if your readers are young.
- Appeal directly to the reader's interests and enthusiasm eg. *You will really enjoy this game. Why not try out this delicious recipe on your friends? Only one more thing left to do now.*
