Autumn 1

Our learning this half term:

Our main theme this half term is 'Where We Live'. We will be locating the countries of the United Kingdom on maps, as well as learning about the surrounding seas, capital cities, famous landmarks and people. This is a fantastic topic as it allows us to cover many aspects of the curriculum.

In English, we will be focusing on the skills we need to retell a story based on the text Elf Road, and how to write our very own descriptive narrative. We will be learning how to use full stops, capital letters and exclamation marks correctly, as well as learning how to make our writing more interesting through the use of adjectives and conjunctions.

The focus in maths this half term is place value, addition and subtraction. Place value refers to the value of each digit in a number. For example, 23 has two 'places' or columns, each with a specific value. The 3 is the 'ones' column and the 2 is in the 'tens' column. Understanding the value of each digit can be quite abstract to children so we practice representing the values of each digit in a variety of more visual ways. Once the children have a good understanding of this, we will then apply these skills to addition and subtraction where we will work towards adding and subtracting two 2-digit numbers.

Supporting learning at home

Reading:

Every child needs to read for at least 15 minutes every day and to talk to an adult about what they have read. Please fill in their reading diary to record their reading each week. Children must make sure that they bring their diary and reading books to school every day as we often use them. It is also important at this age that you find the time to read stories to your child to help them develop a pleasure for reading and a love for books.

Spelling:

Each week the children will receive spelling homework. A list of spellings will be handed out on a Friday, and these will be tested on the following Friday.

Maths:

Each week the children will receive some maths homework. The purpose of this homework is to ensure they develop a deep understanding of number. This will aid their ability to develop efficient strategies to add and subtract mentally.

P.E:

Our P.E slot this term will be every Thursday. Please ensure your child brings their kit into school (a white top, navy jumper and navy shorts or joggers). If your child wears earrings, please ensure they are able to take them out and put them back in independently or please leave earrings out on PE days. Those who have recently had them pierced, please provide tape for them to cover them with.

Forest School

The children will be attending these sessions as a whole class every Monday afternoon. You will receive information about these sessions soon.

Please ensure your child brings a coat and a named water bottle to school
